SAN DIEGO, CA. – April 15, 2009 – Pointivity, a leading application hosting and managed service provider offering enterprise level IT solutions to businesses and partners, today announced it has been awarded the Hosting Solutions Competency by Microsoft, adding a third competency to Pointivity's Gold Certified Partner status in the Microsoft Partner Program.

"Businesses are looking for partner companies that can bridge the gap between their business demands and technology capabilities," said Kent Erickson, CEO of Pointivity. "They need a trusted adviser for their long-term strategic technology plans. Maintaining and enhancing our Microsoft Gold Partner status allows us to continue offering the best solutions on the market to meet the needs and expectations of our customers."

"We are extremely pleased to have attained triple competencies in the Microsoft Gold Certified Partner Program especially with the Hosting Solutions Competency," said Paul Scuba, CTO of Pointivity. The company achieved the Hosting Solutions Competency along with maintaining status as a Microsoft Gold Partner, the highest Microsoft partner level offered. The Microsoft Partner Program was launched in December 2003 and represents Microsoft's ongoing commitment to the success of partners worldwide.
